

**UNIQUE BAGS AND ACCESSORIES MADE WITH HEART**

## SMART MEDIUM

We are designers, craftsmen and creative people who passionately carry  
out the Belt Bag project every day.  
We believe that ethical and solidarity-based fashion can and should exist.  
We believe that beauty and sustainability will save the World.  
However, we don't just believe it, but we work concretely to generate  
positive change in the fashion system.  
Join the Belt Bag world, and make an aware purchase.

### ***BRAND***

Belt Bag is an Italian brand of eco-sustainable upcycling accessories that is part of Occhio del Riciclone, a non-profit social cooperative that has been working to spread the practice of reuse since 2006. Since 2016, it has been part of the Humana People to People Italy network, helping to support the development projects the organization carries out around the world.

## ***UPCYCLING***

The creation of each bag and accessory starts with the study of materials provided by the most prestigious Italian textile manufacturers and is sent for pre- and post-consumer recycling through the upcycling process. The fabrics are always combined with seat belts recovered from car wrecks and sanitized.

### ***QUALITY***

Each article is produced following a careful styling procedure that allows for unique products that are finished to the finest detail. For us, it is essential to follow all stages of processing and to control every detail. All Belt Bags pass usability, resistance and practicality tests and are produced entirely in Italy.

### ***SOCIAL INCLUSION AND ENVIRONMENTAL SUSTAINABILITY***

The non-profit social cooperative "Occhio del Riciclone" gives to people and goods a second chance. The concept of social sustainability for us is translated into the employment inclusion of underprivileged people. Environmental sustainability informs all our activities which, through a circular economy model, aim to give new life to unused materials.
